Engineer Comments:	<p>One of the cables in the back of the light had become brittle and worn away causing it to arc on the metal on the back of the light. I have disconnected the light now and everything is safe. Cut out size is 150mm.</p> <p>Store has many lights of various cut out sizes which aren't working at the moment but Manager Lewis had told me that after a recent visit from an area manager these are all in hand and in progress of being replaced. Job complete</p>
